

Figure 1: Plan view of the proposed road layout. The figure consists of 15 sub-figures labeled 1 through 15, each showing a different section of the road layout. Each sub-figure includes a plan view of the road with various lane markings, a cross-section view showing the road profile, and a table of data. The data tables provide stationing, offset, and elevation information for the road layout. The sub-figures are arranged in a grid, with 15 sub-figures in total. The first sub-figure (1) shows a section of the road with a cross-section view and a data table. The subsequent sub-figures (2 through 15) show different sections of the road, each with its own plan view, cross-section view, and data table. The data tables provide stationing, offset, and elevation information for the road layout. The sub-figures are arranged in a grid, with 15 sub-figures in total.
